Wavefield Inseis win major 3D seismic survey for TPAO

Oslo, Norway, 4 November, 2008 The National Oil Company of Turkey, TPAO, have awarded Wavefield Inseis a major 3D project offshore Turkey in the Black Sea.

This is the third project Wavefield will have performed for TPAO, and this new 3.000 sq.km 3D adds significantly to our already record high backlog and increases our market share in this highly active region.

"We strongly believe that our previous performances for TPAO have lead to us being awarded this major contract," stated VP Marketing and Sales Rick Donoghue. "Repeat business from a client such as TPAO highlights our reputation for delivering a high quality service."
