- Full effect of oil price drop impacting our clients
- Frontier exploration deeply affected
- Prioritization to extract more from existing reservoirs
- Increased focus on energy transition

CAPEX Y.O.Y. CHANGE FOR EU AND US BIG OILS

A clear roadmap focused on technology and solutions in key markets and proven regions

**Geoscience**
- Deliver high-end premium imaging products and services
- Advance geoscience and digital technology leadership
- Remain n°1 choice for nodes processing

**Multi-client**
- Invest in our core areas in Brazil, US GoM and Land, North Sea UK and Norway
- Expand in select proven developing and producing basins
- Digitally deliver integrated solutions

**Equipment**
- Maintain market leadership
- Deliver leading Best-In-Class technology: Nodes, Next generation Streamer
- Expand portfolio within O&G market and accelerate diversification
Covid-19: aligning cost structure to the new baseline

**Ongoing Capex reduction within all business lines**

- 2020 cash Capex around $300 million:
  - Multi-client cash capex at around $225 million at 75% prefunding rate

Equipment operational highlights

Reduced activity and demand worldwide due to impact of Covid-19 and drop in oil price

Land
- Over 60 thousand 508XT channels and 10 Nomad 90 delivered in Q2 mainly in North Africa and Middle East
- First delivery of WiNG system
- Orders in Q2 included a 508XT system for Russia and spares and extensions brought by Sercel’s extensive installed base around the world

Marine
- Activity in the streamer market remains low with mostly spares and Sentinel section sales

Downhole tools
- Artificial Lift gauges reducing significantly in the US Shale
- Memory gauges activity resilient so far

Non Oil & Gas
- SHM node: first pilot tests done in France with promising results
- Acquired stake in a French startup specialized in autonomous robots
Our ESG business initiatives

**Always act responsibly** and abide by all applicable environmental laws

**Continue to advance our technology and services** to enable our clients to sustainably and responsibly discover, develop and manage the Earth’s resources

**Continue to advance our data collection capabilities** to best measure, monitor and continuously reduce our impact

**Commit to improving our power usage efficiency**, increasing the low-carbon content of our energy supply, and reducing our GHG emissions

**Encourage and support our businesses**, all employees globally to find and take specific actions that support the health of the environment, climate and the communities where we operate
Offshore pollution monitoring
CGG uses frequent acquisitions of satellite imagery to enhance our clients situational awareness of oil pollution incidents.

Sercel QuietSea
Fully integrated, passive acoustic monitoring to detect presence of marine mammals for environmentally responsible operations.

Minescope & MotionMap
Precisely map and monitor the stability of mine caverns, pits, tailing storage facilities, infrastructure and geohazards.

Reducing our clients Scope 3 emissions
CGG Cloud in UK has been on a green tariff for 8 years. The amount of energy consumed by our UK sites has been added to the grid by 100% renewable sources.

Geothermal sciences
Dedicated multi-disciplinary team with combined experience of > 130 projects. Leveraging CGG exploration experience in sedimentary basins alongside leading data analytics to bring insights to this high growth area in Geothermal.

Carbon Capture and Monitoring
Technology and expertise to help identify, de-risk and monitor CCUS projects.
Q2 / H1 2020 Non-recurring charges

Global economic crisis, triggered by Covid-19 pandemic and unprecedented drop in oil price and E&P spending lead CGG to carry a full impairment test in Q2 2020 and launch cost reduction actions («Covid-19 plan»).

$(94)m of non-recurring charges were booked in Q2 2020:

- $(7)m severance costs related to Covid-19 plan
- $(17)m mainly non-cash fair value remeasurement of GeoSoftware business available for sale
- $(24)m non-cash goodwill impairment of GeoConsulting business mainly focused on exploration and appraisal
- $(37)m non-cash fair value remeasurement of other financial assets and liabilities mainly related to Marine Acquisition exit
- $(9) non-cash impairment of Deferred Tax Assets
