Forward Looking Statements

This presentation contains forward-looking statements, including, without limitation, statements about CGGVeritas ("the Company") plans, strategies and prospects. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, the Company’s actual results may differ materially from those that were expected. The Company based these forward-looking statements on its current assumptions, expectations and projections about future events. Although the Company believes that the expectations reflected in these forward-looking statements are reasonable, it is very difficult to predict the impact of known factors and it is impossible for us to anticipate all factors that could affect our proposed results. All forward-looking statements are based upon information available to the Company as of the date of this presentation. Important factors that could cause actual results to differ materially from management's expectations are disclosed in the Company’s periodic reports and registration statements filed with the SEC and the AMF. Investors are cautioned not to place undue reliance on such forward-looking statements.

Q1 2012 Review

Financial Review

Operational Review

Outlook and Perspectives
Sercel: Q1 2012 Operational Overview

- **Record high Revenue**
  - **Land Equipment**
    - Strong sales mainly related to high channel counts crews in the Middle East
    - Increase demand for wireless technologies equipment
  - **Marine Equipment**
    - Strong sales of Sentinel solid streamers
    - Commercial development of the OBC/OBN ocean bottom cable systems

- **Sustained high performance**
  - Operating margin at 33% due to favorable sales mix
  - Strong commercial differentiation sustained by high quality and reliability of products and related-services
  - Ongoing R&D effort
Services: Q1 2012 Operational Overview

- **Revenue: $531 million stable y-o-y**
  - Marine contract down 5%
    - Production rate back to good level 92%
    - First HiRes BroadSeis WAZ survey
    - Upgrade program of the Champion completed
  - Land contract down 23%
    - Strong North American winter season
    - Ongoing mobilization of Land crews worldwide
  - Processing, Imaging and Reservoir up 6%
    - Strong activity in the large processing centers
  - Multi-client up 52%
    - High level of marine sales in the Gulf of Mexico and in the North Sea
    - Production focused offshore Brazil and onshore US (Marcellus basin and Alaska)
    - Prefunding rate at 56% due to slow prefunding ramp up in Brazil

- **Negative Operating Income at $8 million**
  - Progressive improvement year-on-year
  - Unfavorable impact of low marine bid prices in the second half of 2011
Agenda

Q1 2012 Review

Financial Review

Operational Review

Outlook and Perspectives
2012 Perspectives: Growth and Performance

- **2011-2012 performance plan**
  - Objective: $150 million additional operating income by the end of 2012

- **Investments: guidance is confirmed**
  - Recurring Industrial Capex of around $250 million
  - Non recurring Industrial Capex of $65 million related to the upgrade of the Champion in Q1
  - Multi-Client Cash Capex:
    - Marine at around $200 - $250 million and Land at around $120 - $150 million
    - Prefunding at around 85%
2012 Perspectives: Growth and Performance

- Group revenue should grow 10%-15%
- Sercel expected to continue to grow and deliver excellent results
- Services expected to improve significantly, especially in H2
  - Marine prices and vessels utilization rate should progressively improve
  - BroadSeis success should continue to strengthen
  - Land activity should remain sustained with a good visibility across the year
  - Multi-Client activity should remain strong with new deep offshore exploration programs
  - Processing, Imaging & Reservoir should continue to benefit from technological demand

In this context and with the progress of our performance plan, 2012 should be a new journey of growth and performance
